

SAMLARC PICNIC SHELTER COVID-19 GUIDELINES

The following guidelines are in place during COVID 19 mandates by the California Department of Health, County of Orange Department of Health and any other governmental agency. These guidelines can be superseded at any time if and when state mandates change.

All persons planning to host or participate in a private gathering, as defined, must comply with the following requirements. Local health jurisdictions may be more restrictive than this guidance.

1. Gatherings are limited to no more than 3 households. This includes everyone present, including hosts and guests. Household is defined as everyone living in your home.
2. Gatherings should be two hours or less. The longer the duration, the risk of transmission increases.
3. The host should collect names of all attendees and contact information in case contact tracing is needed later.
4. For any gatherings permitted under this guidance, the space must be large enough so that everyone at a gathering can maintain at least a 6-foot physical distance from others (not including their own household) at all times.
5. Seating must provide at least 6 feet of distance (in all directions—front-to-back and side-to-side) between different households.
6. Everyone at a gathering should frequently wash their hands with soap and water, or use hand sanitizer if soap and water are not available. A place to wash hands or hand sanitizer must be available for participants to use.
7. Shared items should not be used during a gathering. As much as possible, any food or beverages at outdoor gatherings must be in single-serve disposable containers. If providing single-serve containers is not possible, food and beverages must be served by a person who washes or sanitizes their hands frequently, and wears a face covering. Self-serve items from communal containers should not be used.
8. When gathering, face coverings must be worn in accordance with the CDPH Guidance on the Use of Face Coverings (PDF), unless an exemption is applicable.

People at gatherings may remove their face coverings briefly to eat or drink as long as they stay at least 6 feet away from everyone outside their own household, and put their face covering back on as soon as they are done with the activity.

Face coverings can also be removed to meet urgent medical needs (for example, to use an asthma inhaler, take medication, or if feeling light-headed).
